WELCOME

NRS – NEW REFINING SYSTEM

Incorporated in 2006, NRS Waste Management was acquired in 2021 by AHT (Norlan United). Throughout the years, NRS has successfully delivered services to many reputable clients with cutting edge technology and sustainable approach.

Tan Sri Dato' Haji
Abdullah Bin Haji Taib
Chairman

A journey of success always requires the qualities of planning, strategy and preparation. All these, along with our vision in providing reliable and best quality deliverable are core values of all our operations

“Our vision is to provide the highest level of diligent services and quality product to our client and contribute to the development of the nation”.

A STATEMENT FROM THE LEADER

WHO ARE WE?

NRS Waste Management Sdn Bhd is part of the AHT(Norlan United) Group, a diversified Malaysia conglomerate with presence in construction, property development, manufacturing, and renewable energy. We have been in the industry since 1982 and delivered almost RM 3 Billion in project value.

The journey towards excellence is inspired by what NRS has always done in timely delivering the highest quality results for all those who depend on us, work with us and invest in us.

Mission

- To be leading waste management and renewable energy solution provider in Malaysia.
- To serve our customer diligently in meeting their requirement and delivering value to their investment
- To establish an efficient, effective and highly qualified pool of talents, expertise, specialist and professionals in renewable energy field.

MANAGEMENT TEAM

Cumulatively, NRS team have almost 100 years of management experience with expertise in engineering techno-economic valuation, change management, debt restructuring, project management, quantity surveying, corporate services and strategic planning.

“ A satisfied customer is the best business strategy of all – Michael LeBoeuf”

PERINDUSTRIAN TELUK
KALONG, 24000, KEMAMAN
, TERENGGANU DARUL IMAN.

FACTORY CAPACITY

NRS situated in heavy industry area at Kawasan perindustrian Teluk Kalong, Kemaman. At the moment, it utilizes 2.5 acre of land with an option of another 2.0 acre for future expansion.

3500 m²
storage
capacity

24/7 of operation
time

- Storage yard capacity-12,000 Drums
- 7200 Tonne/Annum of processing capacity..
- 5km from the Kemaman Supply Base (Nearby port)

OSS-M (Oil Sludge Separation) Our PROCESS

OSS-M is the Japanese Patented technology from NRS Corporation, Japan. It utilizes only steam as thermal treatment with high oil recovery rate. No chemical and biological treatment needed.

Waste Receiving Pitless Weighbridge

The SW receive must be weigh first to ensure the tonnage is as per declared in consignment note.

Waste Separation (Storage Bay)

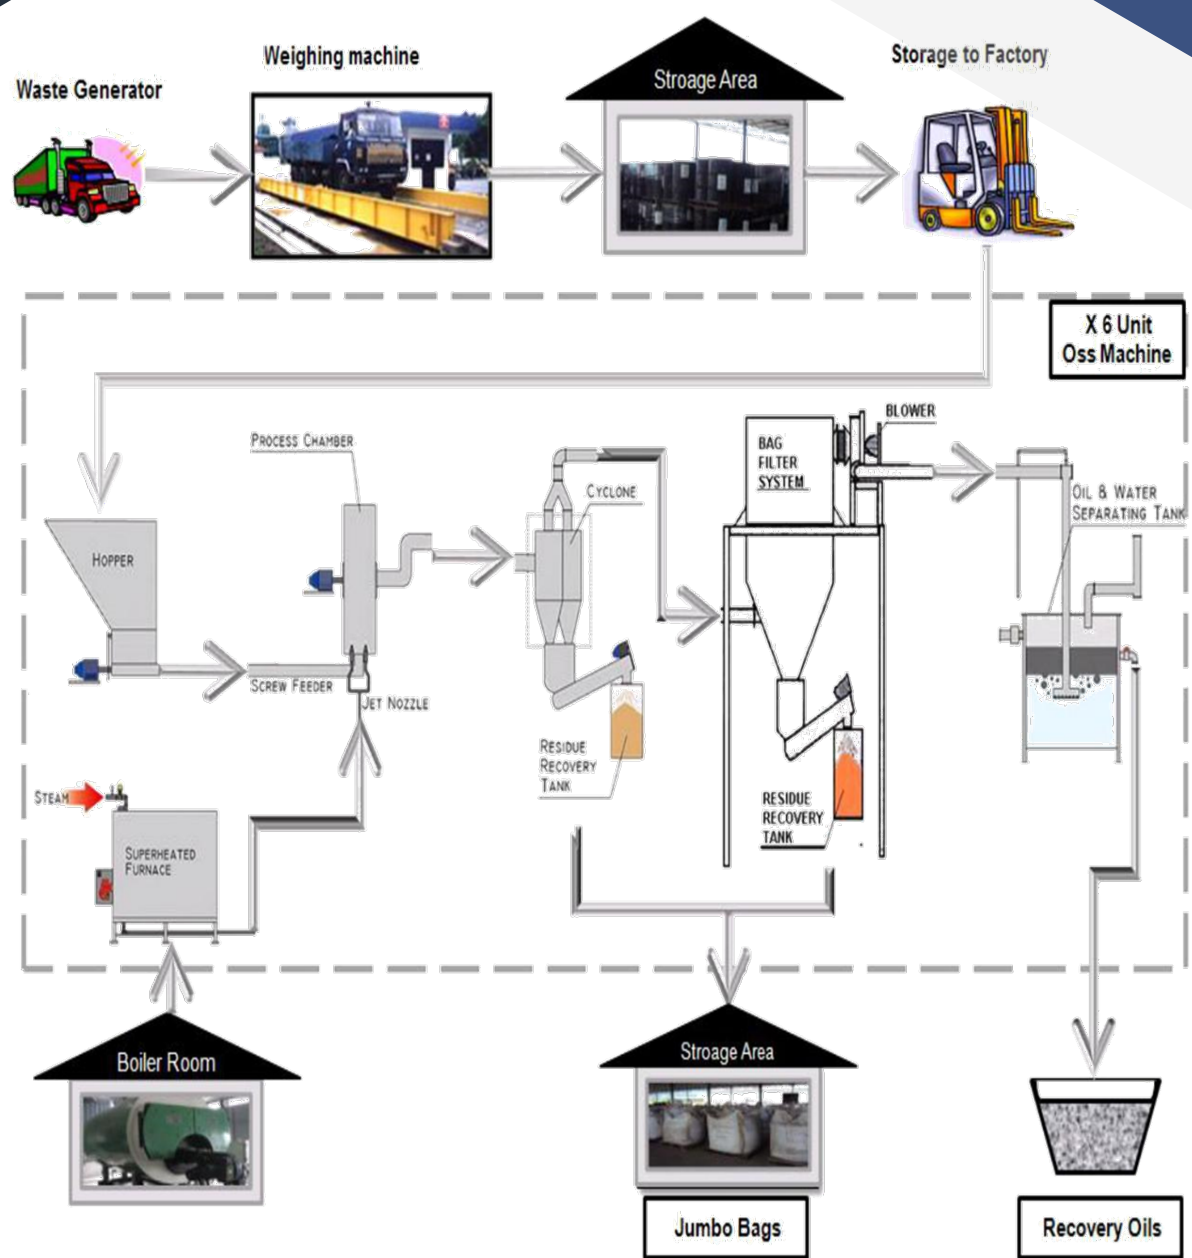

Waste receive will be separate according to the compatible SW code. The storage bay is banded to ensure no leakage to the environment if any spills happened.

OSS-M Recovery Process

Oily sludge will be fed into the machine for oil, water and residue separation. Recovered Oil will be stored while water will undergo treatment and recycle back to the system. Residue will be send to secured landfill.

Process Flow Chart

CLIENTS REVIEWS

NRS has been working with reputable clients in many project focusing on scheduled waste management since our inception in 2006

With our OSS-M technology, we managed to reduced, reuse and recycle valuable resources from our client waste. Thus, we are proud to be one of the company that emphasis on earth sustainability in conducting our business.

CKJ Engineering & Services Sdn Bhd

We are satisfied with the commitment that has been shown from NRS team in managing our ship desludging sludge waste. As of now, we are keen to continue NRS as our scheduled waste contractor – Operation Manager

PETROFAC (Malaysia-PM304) Limited

NRS has managed to transform and reprocess our oily based mud waste from our offshore platform into valuable hydrocarbon and product. This is align with our commitment in using environmental approach technology in managing our waste. – Country Manager

PETRONAS Penapisan Terengganu

We are delighted with the commitment shown by NRS in helping us managing our oil spill in the plant that contaminate the soil. They are providing us with whole package solution – HSES Manager

Malaysian Refining Company Sdn Bhd

At first, we are facing with tight budget in disposing our scheduled waste especially our oily sludge. However, NRS has approach us with scheduled waste management package that reduce our cost as well as align with our company environmental protection policy. .

THANK YOU
